

RevoGen  
**RevoShield+  
Amniotic Barrier & Discs**

Easy to handle, dry graft that rehydrates within the wound setting

Derived from the amniotic membrane of a placenta, RevoShield+ Amniotic Barrier is a dual layer patch that is natural, non-steroidal and can be used in various general orthopedic, reconstructive and spinal procedures. RevoShield+ Amniotic Barrier can also be used in various types of wound care and burn treatments.

**DUAL LAYER**
